PRINCE2®: 2009 Practitioner Course

POTIFOB

PRINCE2 Practitioner Course Goals

This training course is aimed at:

- Giving delegates a deeper understanding of the philosophy behind the PRINCE2 method
- Learning & practising how to apply PRINCE2 to the running and managing of a project within an environment supporting PRINCE2
- Preparing delegates for the official PRINCE2 Practitioner exam.

Participants & Benefits

This course is suitable for project managers, team managers, project support staff, quality assurance staff and anybody else who:

- Is involved in managing projects
- Wishes to improve his/her abilities to apply the PRINCE2 method in practise
- Would like to obtain an independent, globally recognised certificate of his project management skills by taking the PRINCE2 Practitioner exam.

Course Description

PRINCE2 Practitioner is a **2 day course** with the official APM Group PRINCE2 Practitioner certification exam given at the end of the second day. The course is given in cooperation with the Accredited PRINCE2 Training Organisation (ATO) Stichting Partners in Business and draws from experience of having trained more than 6.000 project management students from 20+ countries. It can be delivered in English, German, Czech or Slovak. The training materials are in English. The exam can be taken in English, German, French, Spanish or one of a few other languages. The course is delivered by one of our PRINCE2 Approved Trainers, Mr. Stefan Ondek, PMP, P2RP, CSPM.

Every delegate receives the OGC 'Managing Successful Project with PRINCE2' manual and our PRINCE2 Practitioner Event manual with case studies & trial exams or access to our PRINCE2Train e-learning environment.

Before attending this course the delegate must have passed the PRINCE2 Foundation exam.

The PRINCE2 Practitioner course is set up as a very practical exam preparation course with the official exam on the second day. Students will go through hundreds of practitioner style questions on all PRINCE2 subjects and will receive two full PRINCE2 Practitioner tests exams with answers & reasoning.

The **PRINCE2 Practitioner exam** is aimed to measure whether a candidate could apply PRINCE2 to the running and managing of a non-complex project within an environment supporting PRINCE2.

To this end the candidate needs to exhibit the competence required for the Foundation qualification, and show that s/he can apply and tailor PRINCE2 to address the needs and problems of a given project scenario.

Specifically:

- Know or comment on detailed explanations of all processes, themes and techniques, and examples of all PRINCE2 management products as they might be applied to address the particular circumstances of a given project scenario.
- Demonstrate that s/he understands the relationships between processes, themes, techniques and PRINCE2 management products and can apply this understanding.
- Demonstrate s/he understands the reasons behind the processes, themes and techniques of PRINCE2.
- Demonstrate his/her ability to tailor PRINCE2 to different project environments.

Training Venues

Our open courses are held at proven business class venues throughout Slovakia and in the region. Our semi-open and in-company courses are delivered at client's locations, or upon agreement on "out-of-office" sites.

Our quality guarantee: If you adhere to all trainer's instructions, participate in the whole course and in spite of that do not pass the PRINCE2 Foundation exam, you can repeat the course with us once more for free. You pay just the re-exam fee as set by APM Group, the certification authority.

Best price guarantee: If you obtain a better price offer for an accredited PRINCE2 Foundation, PRINCE2 Practitioner or PRINCE2 Foundation + Practitioner course than ours, we will beat it – just present it to us.

Open, semi-open & in-company courses. We run our courses as open, semi-open and in-company. If you are interested in a tailor-made in-company training offer, please contact us.

How to book a course?
